

## Introduction Block

This brief survey is being conducted by the Research, Scholarship, and Creative Activity (RSCA) Committee of Penn State's University Senate. It is part of an effort by the Senate to assess the presence, extent, and correlates of COVID-19's effect on research activity at the University.

The RSCA Committee is charged with "fostering and promoting the creation of new knowledge by faculty and students in all disciplines across the Penn State campuses." In doing so, we recognize that "research" encompasses a broad range of activities that vary widely across disciplines, campuses, and roles. For the purpose of this survey, we consider "research" to be those activities which fall under the category of "The Scholarship of Research and Creative Accomplishments" in University Policy AC23. These include:

"...competence, usually demonstrated through publication, exhibition, performance, or presentation of scholarly papers, to carry out research or creative work of high quality and scholarly significance... evidence of thorough understanding of the field; maintenance of high levels of academic performance; recognized reputation in the subject matter field; evidence of continued professional growth and active contribution to professional organizations."

This survey is confidential. Data collected will neither be identified with any individual respondent, nor used to identify specific members of the Penn State community. Findings will be reported to the Faculty Senate in aggregated form only. For additional information about our survey's privacy protections, please email [opair.surveys@psu.edu](mailto:opair.surveys@psu.edu).

We anticipate this survey will take between 5 and 7 minutes to complete. Please click on the arrow below to begin.

## Impact Block

First: To what extent is research (as defined above) part of your professional responsibilities at Penn State?

- ☐ Research is my sole or primary professional responsibility at Penn State.
- ☐ Research is a very important part of my professional responsibilities at Penn State.
- ☐ Research is co-equal with several other of my professional responsibilities at Penn State.
- ☐ Research is a small part of my professional responsibilities at Penn State.
- ☐ Research is not among my professional responsibilities at Penn State.

Next, consider the eight-month period from **March 1 to October 31, 2019**. On a scale from zero to 100, with zero being the lowest score and 100 the highest, how would you rate your research productivity during that period?

## Reasons Block

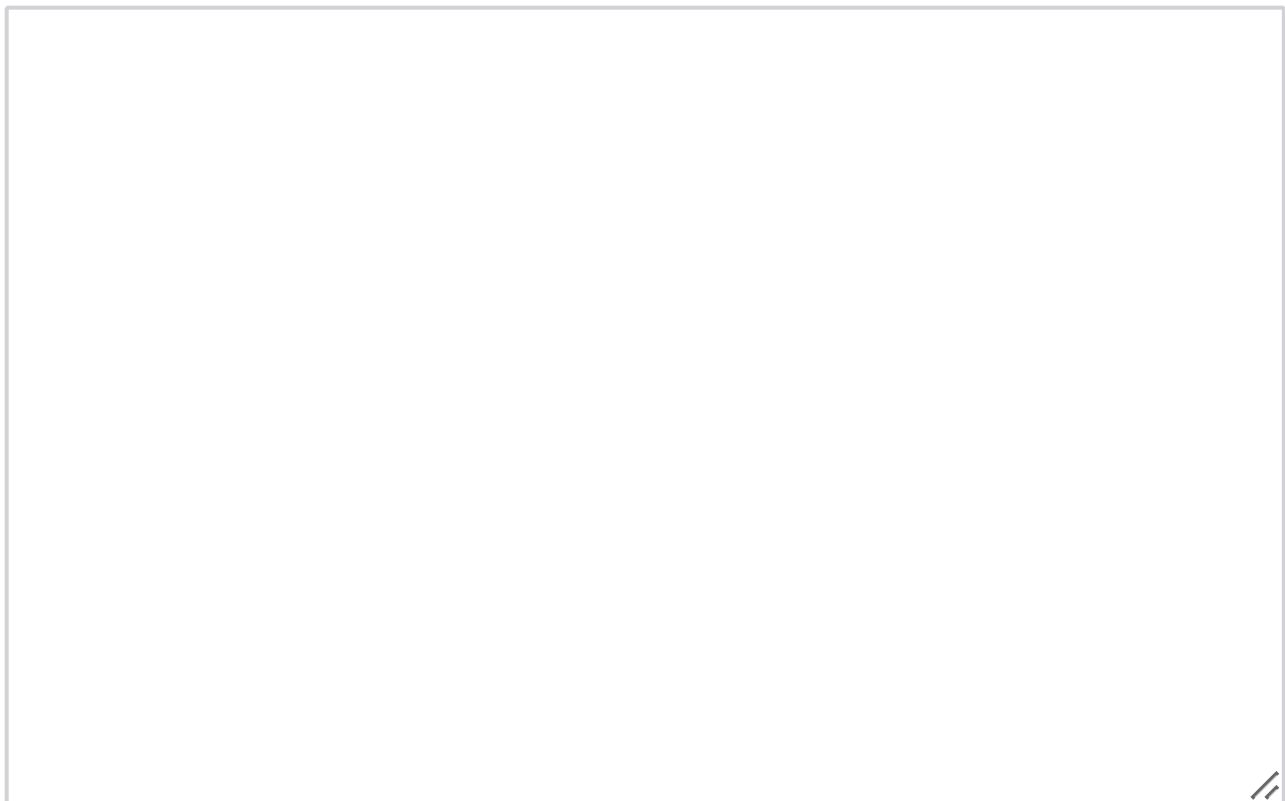

Beginning in March 2020, Penn State took a number of actions to facilitate the continuation of research at the University. Please indicate which, if any, of these actions helped to mitigate the impact of COVID-19 on your research productivity. Check all that apply.

- ☐ The availability of **internal seed grants**.
- ☐ The Office of Sponsored Program (OSP)'s support in working with sponsors to allow non-working employees to temporarily **continue charging to grants**.
- ☐ OSP's support in obtaining **no-cost extensions**.
- ☐ **Supplemental awards** from sponsors.
- ☐ The availability of **remote access to core research facilities**, and upgraded with hardware and software to support remote research.
- ☐ The ability for undergraduate students and graduate students to **continue working** in labs and other facilities, albeit at a reduced level.
- ☐ **Other measures** that kept research moving forward (please specify).

If you would like to offer any additional insights into COVID-19's impact on your research, you may do so in the box provided below.
